SOCIEDAD MEXICANA DE
CIRURÍA NEUROLÓGICA, A.C.

Honorables médicos neurocirujanos y ortopedistas, esperando que todos se encuentren muy bien, les envío un cordial saludo.

Como presidente de congreso de la World Federation Spine Surgery (WFSE) y a nombre del comité organizador, me complace anunciarles el VII CONGRESO MUNDIAL DE CIRUGÍA ENDOSCÓPICA DE COLUMNA & MISS que celebraremos del 15 al 18 de abril de 2026 en modalidad presencial, por lo cual será un gusto verlos y estrechar su mano nuevamente teniendo como sede el hotel Hilton Riviera Maya, Tulum México.

Busco esparcir y aumentar el conocimiento, mostrar las ventajas, indicaciones y contraindicaciones de la cirugía de mínima invasión y endoscópica de columna, así como llevar a cabo una reunión que congrege a los principales exponentes de dichas técnicas a nivel mundial y nacional para crecer y mejorar en la práctica de nuestros cirujanos de columna en nuestro país.

De la mano de una extensa lista de profesores internacionales y nacionales expertos en cada subespecialidad de neurocirugía, se ha creado un contenido científico con actividades académicas basadas en simposio, discusión de casos clínicos, pláticas magistrales y talleres quirúrgicos representan una excelente oportunidad para mantenernos actualizados. Así mismo se contará con talleres pre-congreso, exposición comercial y eventos sociales que estarán fomentando la convivencia por lo que estamos seguros de que su asistencia al congreso será enriquecedora y divertida.

Nos vemos muy pronto, les envío un cordial saludo.
